

MEMO

To:	All New Age Services Stakeholders
From:	Kathryn Senio
Date:	May 12, 2020
Subject:	REMINDER - NAS INC. Protocol for 1 Health Care Facility

In April 2020, New Age Services Inc. has was provided updated information from Dr. Deena Hinshaw-Chief Medical Officer of Health.

The Record of Decision stated that there was restricted movement among Health Care Facilities. Employees were required to work in ONLY 1 Health Care Facility. This includes Group Living Homes.

If employees worked in more than 1 Health Care Facility- Communal Living Environment, they were required to disclose-report this to their employer no later than April 15, 2020 by reporting to their direct supervisor at each of the Health Care Facilities where they provide care.

The employee was required/authorized to choose 1 Health Care Facility to work in and inform the other Facility or Facilities that they were not able to continue to work in the environment due to the outlined restrictions.

New Age Services Inc. has continued this protocol to assure as much safety as possible to the individuals and staff working in the Group Living environments and to reduce the risks due to the vulnerable and medically fragile persons we support.

If you have any questions or concerns please contact your Supervisor.
